Title: Method and Apparatus for Reaching From Outside an Upper Level of a Tall Structure

RE: REQUEST FOR EXAMINER INTERVIEW

RECEIVED
CENTRAL FAX CENTER

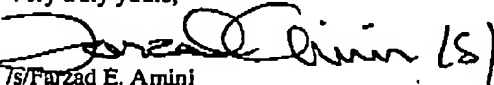

JUN 05 2006

Dear Examiner Chin Shue:

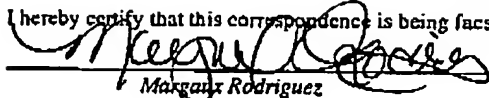

Please let me know when would be a good time for a telephone interview in both of these cases. I propose to discuss the teachings of the relied upon art references of Woodward, Bruce, Wahlefeld, Macdonald, and Chenoweth. In addition, I would also like to discuss, first with respect to Serial No. 10/763,596, the following claim limitations: *a cable looped around a pulley that is attached to a structure and is sufficient length to reach below the pulley to where personnel gather in an area next to a base of the structure, and a traction hoist around which the cable is looped to lift a load that is to be attached to the cable, the traction hoist being located in the area next to the base.*

Please let me know when would be a good time to discuss the above via telephone, sometime this week.

Very truly yours,

/s/Farzad E. Amini
